

INDEX TO SUPERPET GAZETTE, VOL. I, ISSUES 2-15

- ACIA. See serial port, RS-232
 ADA interfaces (printer)
 1450 I,25
 1800 I,205
 Addresses, hex to decimal I,246
 changes, to ISPUG I,268
 Agricultural Software I,212
 ALPHA (ML sorts) I,235
 Anatomy of
 mEDITOR I,187,247,253
 mBasic I,226,249,288
 Anchor modem I,157
 APL
 Anscombe disk I,226
 APL.COM. See telecommunications.
 books I,89,110,154,226
 branching, looping I,151
 char set to Epson Printers I,196
 for 8023 printer I,207
 COM-MASTER with I,210,223
 commands to printer I,127
 debugging I,153
 decimal tables APL codes I,127
 disk, dump. See screen dump
 DOS commands I,39
 editing in mED I,25,115
 editor, using I,53
 EDA disk I,89,110
 filing WS to drive 1 I,127
 fonts, switching APL-ASCII I,115
 forms of functions I,86
 function dumps from screen I,273
 indexing, labels I,151
 keyboard change I,115
 decals I,240
 long filenames I,40
 McFarlene disk I, 89, 110
 menus I,223
 printwheels for, I,181
 roman keyboard I,115
 screen dump I,45,106,108,273
 seq files I,104,108,127
 telecom from WS I,162,210,262
 world conference '83 I,107
 ASCII code and effects
 control codes missing mED I,239
 in SuperPET I,2,161
 keyboard I,7
 screen control I 2,8,213
 cursor control I,40,213
 Assembler. See Development
 BASICOM (telecom, mBASIC) I,246
 Bank Switching with IRQs
 see IRQ routines
 Bar Graphs I,213
 Base 2 printer APL font I,27,46,206
 Beck on APL Char Set I,205
 Bogart on APL, monitor I,25
 Boolean with integers I,116,240
 Books, SPET languages. See references
 Brewster on chaining I,123
 Brockman on
 bug in input I,282
 FORTRAN files I,183
 format control summary I,256
 FORTRAN screen dump I,274
 Buffer, keyboard I,3,122
 problems in 2031 drive I,184
 Bulletin Boards
 Matzke, 6809 I,161
 SuperPET 6502 I,137
 SuperPET 6809 I,161
 Busdiecker on ROMs I,28
 Call.macro I,158
 CC Register, interpreting I,192
 Chaining, fails I,122
 without chaining I,123
 patch, fix for mBASIC I,209
 Change device #, disk drives I,115
 Character generator failure I,46
 Character set, APL. See APL
 COBOL
 DOS commands I,29
 background I,249
 Codes, keyboard I,1,7,8
 keypad I,1,20
 NEWTERM, I,136
 COM-MASTER
 improvements for APL I,210,222
 terminal emulator I,136,269
 Comparison, mBASIC w/BASIC 4.0
 time to execute I,14
 Convert 6502 files to 6809
 I,69,94,95
 Paperclip to ASCII I,244
 WordPro to ASCII I,95
 Convert hex to decimal addresses
 I,59,246
 Cook on COBOL I,249
 Copying
 assembly language prg I,143
 PRG files, speed I,234
 in mBASIC V1.0-1.1 I,239
 ROMs to disk, 6502 I,28

Cursor
 control, mBASIC I,2,21
 control, general I,213
 tabbing, ML I,216
 relative control I,40
Date, time: see set date, set time
Davis on mPASCAL Filen. len. bug I,216
Development (Assembler)
 assembler and linker
 screens I,143
 books I,33. See references
 comparisons, signed & unsigned
 I,194
 chart of files I,51
 clear carry flag I,149
 getting started I,34
 guess-endguess I,133
 indexed addressing I,98
 IRQ routines. See.
 length routine I,149
 .lst (list) files I,186,239,255
 moving functions to/from disk I,103
 problems in code I,247
 stacking registers I,177
 structured programming I,231
 SYS calls. See.
 tests signed, unsigned I,194
 two's complement I,194
 use programs by copying I,143
 macros I,144,158
 music with I,177
Directory listing bugs I,213,239
Disk drives
 pressure felt failure I,242
 8050 DOSbug I,165,182
Display error, large #'s, in
 mFORTRAN, mPASCAL I,169
DO and FOR...NEXT loops I,282
DOS commands
 APL I,39
 bug, 8050 I,165,182
 COBOL I,29
 easy way in 6809 I,126
 g ieee8-15. I,40,67,126
 bug, I,182
 second set drives I,212
 general I,15,126
 PASCAL I,24
 program for, mBASIC I,17
Dumps, APL see APL
